IS IT POSSIBLE TO GET  
A BUSINESS STARTED  
WITH LITTLE  
MONEY?

WHAT ACTIONS DOES  
SOMEONE NEED TO  
TAKE TO BE  
SUCCESSFUL?

WHAT IS THE  
ALTERNATIVE TO HIGH  
INVESTMENT  
BUSINESSES?

## WHAT IS THE BEST BUSINESS TO START WITH LITTLE MONEY FROM HOME?

**A business started with little money is of course a risk from the very beginning, but frankly all business is risky, so what is the best business to start where you won't lose your shirt?**

Some investment is always needed to start a business, but keeping the outgoings down at the early stages of a new venture is vital for success, because many go out of business within six months. So, it is important to either have an income straight away or work on your business part-time until you do have a flow of money into your business. I personally prefer starting a business on a part-time basis and once the predicted growth is seen go full-time.

By Steven Jackson

There are many eBook available that offer advice on how to start a business as well as how to build one online. I mention working online from the very start of this article because regardless if you enjoy using the internet or not. The internet is going to be a fundamental part of your business life, like it or not. In addition to reading this article and subscribing to this page I would suggest reading an eBook by Steve Jackson called "Beginners guide to online prospecting in network marketing". It will give you all the tools and knowledge to start a online business with no money or at least not much money.

### **Is it possible to get a business started with little money?**

The simple answer is YES!

There are lots of low investment high profit business ideas available online.

### **Here are some easy businesses to start with little money:**

- Affiliate marketing
- Network Marketing
- Direct sales

All of these ideas allow anyone short of funds to start a business for FREE or for a small investment. The main issue for many considering starting a business of any type is not taking action and not committing to doing daily actions.

The most annoying reason for people new to starting a business is that "Life gets in the way". For me this is a very procrastinating answer. Before someone has decided to start a business they should consider all the changes they will need to make in life. Once they have laid out the changes to the existing lifestyle, then decide if a business has room to be. Once you have considered all the options of working from home, decide if life will or will not get in the way.

## WHAT ACTIONS DOES SOMEONE NEED TO TAKE TO BE SUCCESSFUL?

Depending on the business you want to start, it could mean building a blog, running live or online presentations, running house parties or even hiring a table at a trade show. However, how you want to run your business is completely up to you.

Success will come from the skills and knowledge you already have about running a business and your willingness to learn new things.

### **Why do people look for a business started with little money?**

Our lives and the world is changing everyday and not always in a good way. We lose our jobs or we become ill and then suddenly we are stuck in a situation with no financial means to pay the bills. Then maybe a friend suggests starting a business, but without ready cash in our pockets a traditional business is out of the question. Sadly, we never prepare for the worse case scenario until it is too late. So, it is sometimes a good idea to consider starting a home business before you become ill or unemployed.

### **Finding low start up business opportunities**

Consider finding a business that does not entail purchasing a large office space, large outgoings or employing staff. I am sure you can guess how much money would be spend on these three area alone. So, any business that does not need a massive amount of outgoings is money that stays in your pocket.
